Paper No./Mail Date _____
7. ☒ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney L. Johnston on 3/28/07.

The application has been amended as follows:

- a) In claim 27 lines 1-2 delete "an aqueous system" and insert --- a ballast water tank ---.
- b) In claim 27 line 2 delete "aqueous system" and insert --- ballast water tank ---.
- c) In claim 27 last line before "2,3-dimethoxy-5-methyl-1,4-benzoquinone" insert --- and ---.
- d) In claim 27 last line delete "and" and insert --- or ---.

The following is an examiner's statement of reasons for allowance: USPN 4092433 is the closest prior art to the instant invention. USPN '433 teaches a method of applying the benzoquinones (e.g., 1,4-benzoquinone, 2-methylbenzoquinone) to bodies of water (river, pond, irrigation canal) to control mollusk pests. However, the prior art does not teach or suggest applying benzoquinones to ballast water tanks infected with mollusk pests in order to control them. The treatment of ballast water reduces the transport of mollusk infected water as well as the discharge of the infected water into bodies of water.

Art Unit: 1616

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
